Education

Rungta College Of Engineering and Technology

Bachelor of Technology in Computer Science and Engineering - 7.41 CGPA

May 2026

Bhilai, Chhattisgarh

St. Xavier's School

Intermediate In Science – 82.5%

May 2021

Bokaro Steel City, Jharkhand

Relevant Coursework

- | | | | |
|--------------------------------|-------------------------|--|----------------------------------|
| ▪ Data Structures & Algorithms | ▪ Object-Oriented Prog. | ▪ Artificial Intelligence & Machine Learning | ▪ Data Analytics & Visualization |
| ▪ Software Engineering | ▪ Database Management | ▪ Cloud Computing | ▪ Operating Systems |

Experience & Training

Microsoft Elevate & AICTE | Power BI Intern

Dec 25 – Jan 2026 (Virtual)

- Completed a 2-month internship gaining a hands-on experience with Power BI for Business Applications under Emerging Technologies.
- Worked with Power BI concepts including dashboards, data visualization, reporting, and business insight generation.
- Learned data transformation, visualization techniques, and analytics workflows for business applications.
- Gained practical exposure to data-driven decision-making and reporting tools.

EduSkills (AICTE Internship) | AWS Cloud Trainee

Oct – Dec 2025 (Virtual)

- Completed a virtual training/internship focused on hands on experience of cloud computing and AWS services.
- Gained hands-on exposure to cloud infrastructure, deployment models, and AWS fundamentals.
- Learned core cloud concepts including storage, virtual machines, networking, and security.
- Worked with AWS Academy curriculum and completed practical learning modules and assessments.

Projects

Resume Parser | Python, Flask, SQLite, OpenAI API, HTML5, CSS, JavaScript

May 2025

- Built a role-based resume matching application using semantic similarity to match candidates with the job descriptions and reducing manual screening effort by 60%.
- Extracted key skills and sections from PDFs using SpaCy, pdfplumber, and Sentence Transformer.
- Enabled job matching, score generation, and skill-gap based course recommendations.

Automated Data Verification System | Python, Tesseract OCR, SpaCy, Pandas, NumPy

Nov 2024

- Built a web app to extract and verify user-entered data (Name, DOB, Parents' Names) from identity and academic documents.
- Used Tesseract OCR, SpaCy NER, and fuzzy matching to automate cross-document verification
- Reduced manual validation effort by automating data checks across multiple uploaded documents.
- Achieved automated multi-document verification of personal data with 90% accuracy.

Technical Skills

Languages: C++, Python, Java, JavaScript, HTML5, CSS, SQL

Technologies/ Frameworks: FastAPI, Flask, Streamlit, SQLAlchemy, Pandas, NumPy, OpenCV, spaCy

Developer Tools/ Cloud/ Databases: PostgreSQL, SQLite, Git, GitHub, AWS, GCP, Power BI, Tableau, SAP Analytics Cloud

Certifications

- AWS Cloud Architecting Training
- Google Cloud Data Analytics
- DSA with C++ (Campus Connection)
- Java Deep Diving (Udemy)
- SAP Business Data Cloud – Course

Achievements

- Secured 3rd Position in College Project Competition for the Automated Data Verification System, recognized for excellence.
