Education

Rungta College Of Engineering and Technology

Bachelor of Technology in Computer Science and Engineering - 7.41 CGPA

Sep. 2022 – May 2026

Bhilai, Chhattisgarh

St. Xavier's School

Intermediate In Science – 82.5%

May 2021

Bokaro Steel City, Jharkhand

Relevant Coursework

- | | | | |
|--------------------------------|----------------------------------|--|---------------------|
| ▪ Data Structures & Algorithms | ▪ Data Analytics & Visualization | ▪ Artificial Intelligence & Machine Learning | ▪ Operating Systems |
| ▪ Software Engineering | ▪ Database Management | ▪ Object-Oriented Prog. | ▪ Cloud Computing |

Experience & Training

EduSkills (AICTE Internship) AWS Cloud Trainee

Oct – Dec 2025 (Virtual)

- Completed a virtual training/internship focused on hands on experience of cloud computing and AWS services.
- Gained hands-on exposure to cloud infrastructure, deployment models, and AWS fundamentals.
- Learned core cloud concepts including storage, virtual machines, networking, and security.
- Worked with AWS Academy curriculum and completed practical learning modules and assessments.

Microsoft Elevate & AICTE Power BI Intern

Dec 2025 – Jan 2026 (Virtual)

- Completed a 2-month internship gaining a hands-on experience with Power BI for Business Applications under Emerging Technologies.
- Worked with Power BI concepts including dashboards, data visualization, reporting, and business insight generation.
- Learned data transformation, visualization techniques, and analytics workflows for business applications.
- Gained practical exposure to data-driven decision-making and reporting tools.

Projects

Automated Data Verification System | Python, Tesseract OCR, SpaCy, Pandas, NumPy

November 2024

- Built a web app to extract and verify user-entered data (Name, DOB, Parents' Names) from identity and academic documents.
- Used Tesseract OCR, SpaCy NER, and fuzzy matching to automate cross-document verification
- Reduced manual validation effort by automating data checks across multiple uploaded documents.
- Achieved automated multi-document verification of personal data with 90% accuracy.

Resume Parser | Python, Flask, SQLite, OpenAI API, HTML5, CSS, JavaScript

May 2025

- Developed a role-based app for recruiters and applicants to match resumes with job descriptions using semantic similarity reducing the manual screening effort by 60% as compared to the traditional manual process.
- Extracted key skills and sections from PDFs using SpaCy, pdfplumber, and Sentence Transformer.
- Enabled job matching, score generation, and skill-gap based course recommendations.

Technical Skills

Languages: CPP, Python, Java, HTML5/CSS, JavaScript, SQL

Developer Tools: VS Code, Tableau, Power BI, Google Cloud Platform, AWS Cloud, GitHub, Figma, SAP Analytics Cloud

Technologies/Frameworks: Streamlit, Git

Certifications

- Google Cloud Data Analytics
- AWS Cloud Architecting Training
- DSA with C++ (Campus Connection)
- Java Deep Diving (Udemy)
- SAP Business Data Cloud – Course Completion

Achievements

- Secured 3rd Position in College Project Competition for the Automated Data Verification System, recognized for excellence.
